Brisbane QLD Australia

## 1. PURPOSE

The Forces Group Capability Alliance brings together specialist technology providers, infrastructure manufacturers, and operational capability partners to deliver deployable infrastructure systems across Defence, government, emergency services, and remote operations environments.

Forces Group Australia operates as the Prime Integrator responsible for coordinating delivery of integrated capability programs.

The alliance enables multiple specialist capabilities to operate under a single accountable Prime delivery framework.

This structure allows clients to engage one organisation while integrating a range of specialist technologies and infrastructure systems.

## 2. PRIME INTEGRATOR MODEL

Forces Group Australia operates as a Prime Integrator responsible for:

- Contract governance
- Program integration
- Client engagement and reporting
- Delivery coordination
- Commercial management
- Operational oversight

Under this structure Forces Group holds the head contract with the client.

Capability Alliance partners contribute defined technology systems, infrastructure components, or specialist services that form part of the broader delivery program.

This model reduces procurement complexity while enabling integration of specialist capabilities.

### 3. CAPABILITY AREAS

The Capability Alliance integrates specialist capabilities across several infrastructure domains.

#### **Deployable Infrastructure Systems**

Containerised and modular infrastructure supporting operational environments and temporary facilities.

#### **Energy and Utility Systems**

Hybrid power systems, off grid energy solutions, fuel systems, water generation, and environmental infrastructure supporting remote operations.

#### **Operational Workforce Systems**

Infrastructure and systems supporting workforce sustainment, operational readiness, and remote workforce capability.

#### **Autonomous and Monitoring Systems**

Specialist technologies supporting situational awareness, monitoring, and operational support capability.

#### **Integrated Systems Delivery**

Multi capability infrastructure programs delivered under a single Prime contractor.

#### **4. PARTNER PARTICIPATION**

Capability Alliance partners remain independent organisations providing specialist systems or services within their area of expertise.

Partners may contribute capability through:

- Technology systems
- Infrastructure manufacturing
- Specialist engineering capability
- Operational technologies
- Deployment support services

Forces Group coordinates integration of partner capabilities into infrastructure systems delivered under Prime led programs.

#### **5. BENEFITS FOR CAPABILITY PARTNERS**

Participation in the Capability Alliance provides partner organisations with:

- Access to government and Defence capability programs
- Integration into multi capability infrastructure deployments
- Prime led contract governance and client interface
- Participation in sovereign infrastructure capability delivery

Partners maintain ownership of their technology, manufacturing capability, and intellectual property.

100 percent Indigenous-owned

Supply Nation certified

Australian owned and operated

Prime-held contracts

## 6. INDIGENOUS PROCUREMENT PARTICIPATION

Forces Group Australia is a 100 percent Indigenous owned organisation verified by Supply Nation.

Engagement with Forces Group contributes to Indigenous Procurement Policy participation through Indigenous Prime contract governance.

This structure allows government and Defence clients to integrate Indigenous participation directly within program delivery while accessing specialist capability providers.

## 7. INDIGENOUS CAPABILITY PARTICIPATION

Forces Group Australia actively seeks to integrate Indigenous owned capability providers within the Capability Alliance network where suitable capability exists.

Where Indigenous suppliers provide relevant systems or services, Forces Group prioritises their participation within delivery programs.

To support participation and remove barriers to entry, Indigenous businesses may participate in the Capability Alliance without standard participation fees applied to other partners.

This approach supports broader Indigenous participation across infrastructure delivery supply chains.

100 percent Indigenous-owned

Supply Nation certified

Australian owned and operated

Prime-held contracts

## 8. PARTNER ENGAGEMENT

Organisations interested in participating within the Forces Group Capability Alliance may engage with Forces Group to explore capability integration opportunities.

Participation may include technology integration, infrastructure manufacturing, specialist systems delivery, or operational support capability.
